

Connect Account Guide - Mobile

DRIBL

Tips before you start

- There is no 'back' button

- Once you select the Type of Business, you will not be able to change it as it dictates the process that follows
- For all other data points, you will have the opportunity at the end of the process, i.e. during the 'Summary' stage, to make updates

- Complete all fields as you go

- Although not all fields are required on the first pass, they will need to be completed when you reach the Summary. Save time by completing them upfront.

- There are many variations to onboarding. The scenarios included in this deck show the optimal way for a referee (individual) of completing the process whether they are an adult or doing the registration on behalf of their child.

Special Note – Adults (18+) vs Non-Adult (<18)

- Take special note if the individual is under the age of 18 years of age.

If you are 18 years of age and over

- Gather the information you will need so you can complete the onboarding process in one sitting. Types of information you might need:

- Your Personal details name, dob, address, phone number, bank account, etc.
- Scans of your identification documents

If you are less than 18 years of age

- You will still login with your Dribl login but ensure that you have a parent or guardian **WITH YOU** while creating your Connected Account

- Gather the information you will need so you can complete the onboarding process in one sitting. Types of information you might need:

- Parent/Guardian Personal details name, dob, address, phone number etc.
- Parent/Guardian Scans of identification documents
- Childs bank account (or Parent/Guardian bank account if the child does not have one)

After onboarding, every time you access the Stripe dashboard, you will need to verify in the same way.
